Richmond County...

Maintenance project affecting I-520 eastbound traffic tonight

What: The \$1.1 million bridge preservation project will close two eastbound lanes tonight on the Interstate 520 (Bobby Jones Expressway) bridge over Old Louisville Road.

Depending on weather conditions, the contractor will likely work on the westbound bridge Wednesday night and the State Route (SR) 56 bridge over I-520 on Thursday evening. The traveling public should be aware of project personnel and heavy equipment moving close to the travel lanes. Lane closures will be in place during work hours.

Overall, this project consists of bridge preservation work on four bridge structures on I-520 in Richmond County and four bridge structures on I-20 in Warren County. The preservation involves co-polymer overlay of the bridge decks and joint replacements. Bridge Masters Construction, LLC. was awarded the contract with a July 31, 2016 completion date.

When: The contractor will work from 7 p.m. through to 6 a.m. at the various bridges this week, as weather allows.

Where: I-520 eastbound bridge over Old Louisville Road at mile marker 8.45 and the opposite westbound structure; SR 56 over I-520.
